GENERAL DESCRIPTION

Unique to WA! This 1 metre high outdoor stage in a tin shed case is bang in the middle of town and shares a massive 15,000 square metre block with the local outdoor cinema. There is a concrete pad in front of the stage seating an intimate 300, or you could throw caution to the wind and let in 5000.

The whole front wall of the shed is hinged and opens up to reveal a 12000mm wide x 6000mm deep stage with a newly laid timber dance floor and two dressing rooms backstage. There is a 32 amp three phase outlet upstage centre, and FOH lighting bar 1800mm in front.

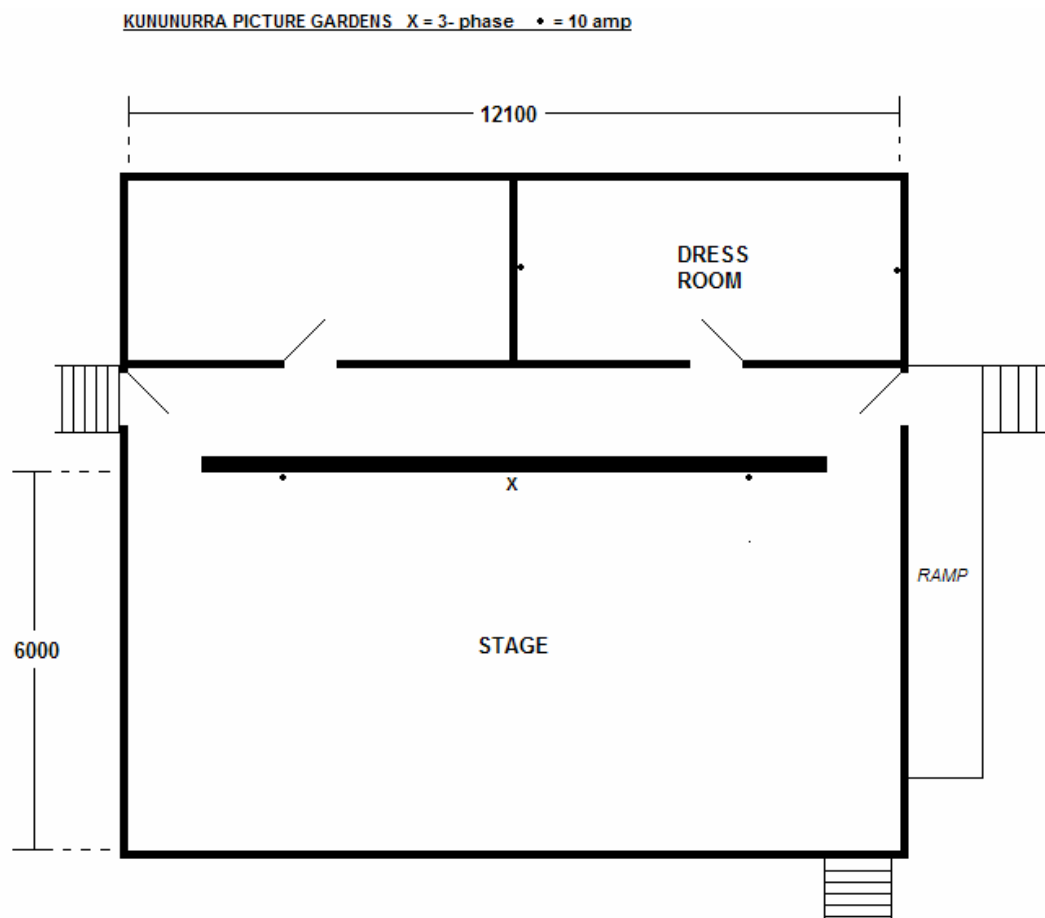

Side elevation showing doorpost and ramp

TOURING TIPS

- The 2750 high back wall crossover has a mirror on it, so you'll need to cover it over.
- No toilets backstage, so use the public toilets in the cinema projection building located in the same grounds.
- Keep your PA stacks outside and avoid loud fold back inside, some groups say the tin interior acts like a rattling drum. Leave plenty of time in your schedule for sound checks.
- The Kununurra Leisure Centre has loose plastic chairs which may be available to borrow or hire if seating is required.

DIMENSIONS – All dimensions in mm

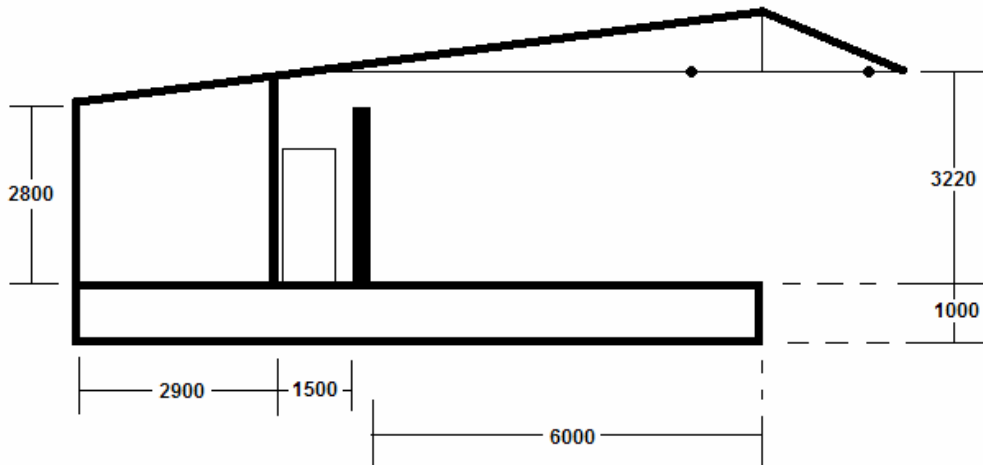

Stage depth	6000
Stage width	12100
Stage height	1000
Stage thrust	0
Stage floor to ceiling	4140
